Lines of Inspiration – Luc Peire and Mu.ZEE through the eyes of Edouard Vermeulen

13.7.2025 to 4.1.2026

This summer, the Peiremuzee in Knokke-Heist is proud to present a special exhibition curated by Edouard Vermeulen, the internationally renowned designer and artistic mastermind behind the fashion house NATAN. The result is the sophisticated interplay of art, fashion and architectural sensibility.

Edouard Vermeulen chose Peire's work *Pompeiï 1* from 1965 as the image for the exhibition

Starting from his background as an interior designer and his keen sense of form, line and perspective, Edouard Vermeulen makes a personal selection from the Peiremuzee which resonates with his own aesthetic universe. At the centre is his fascination with exceptional materials which are not only visually alluring but also surprising to the senses. Fabrics which speak, lines which lead, colours which communicate: Vermeulen's world is a subtle interplay of refinement.

The work of Luc Peire – the master of abstract verticalism – with its clear lines, geometry and sense of rhythm blends seamlessly with Vermeulen's own language of form. Around Peire, Vermeulen groups a selection of iconic Belgian artists: Walter Leblanc, Raoul De Keyser, Luc Tuymans, Lili Dujourie, Paul Van Hoeydonck and others. All the works come from the Mu.ZEE collection, now closed for major renovation. Together they form a powerful ensemble celebrating the richness of Belgian visual art!

The exhibition is completed by several carefully chosen clothing designs by Vermeulen himself – sculptural silhouettes which bridge the gap between fashion and art. These designs, presented alongside the works of art, underscore the power of textiles as an artistic medium and offer a unique insight into the creative world of a designer who has been at the forefront for decades, both in Belgium and far beyond.

A Belgian celebration of form and colour – where fashion and the visual arts meet in an elegant, sensory dialogue.
